Honourable Jeannie Ehaloak
Minister Responsible for Qulliq Energy Corporation
Government of Nunavut

Re: Major Project Permit Application – Arctic Bay Power Plant

Dear Minister Ehaloak,

Pursuant to Section 18.1(2) of the *Qulliq Energy Corporation Act*, Qulliq Energy Corporation (QEC) requires ministerial approval in advance of undertaking a major capital project that has a total cost that exceeds \$5 million. Please find attached a major project permit application to construct a new power plant in Arctic Bay for your review and consideration.

Given the age and condition of the existing power plant in Arctic Bay, QEC proposes to conduct a plant replacement. The proposed upgrade will assist QEC in its continued drive to provide safe, reliable and cost effective electric power in supporting the continued growth of Arctic Bay.

We respectfully request your consideration to give permission to move forward with this project.

Sincerely,

Bruno Pereira
President and CEO
Qulliq Energy Corporation
