INDEPENDENT AUDITOR'S REPORT

To the Minister Responsible for Qulliq Energy Corporation

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of Qulliq Energy Corporation, which comprise the statement of financial position as at 31 March 2019, and the statement of operations and accumulated surplus, statement of change in net debt and statement of cash flow for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matter described in the *Basis for Qualified Opinion* section of our Report on the Audit of the Financial Statements, the accompanying financial statements present fairly, in all material respects, the financial position of Qulliq Energy Corporation as at 31 March 2019, and the results of its operations, changes in its net debt, and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Qualified Opinion

Canadian public sector accounting standards require inventories for use to be reported as a non-financial asset when acquired and recognized as an expense when used. Management has not implemented reliable count procedures and appropriate procedures to account for the usage of its spare parts and lubricants inventories, and we were not able to satisfy ourselves concerning these inventory quantities. As a result, we were unable to determine whether any adjustments might be necessary to reported non-financial assets as at 31 March 2019 and 31 March 2018 and to the results of operations, changes in net debt and cash flows for the years then ended. Our audit opinion on the financial statements for the year ended 31 March 2018 was modified accordingly because of the possible effects of this limitation in scope.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of Qulliq Energy Corporation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing Qulliq Energy Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate Qulliq Energy Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing Qulliq Energy Corporation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Qulliq Energy Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Qulliq Energy Corporation's

ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Qulliq Energy Corporation to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Compliance with Specified Authorities

Opinion

In conjunction with the audit of the financial statements, we have audited transactions of Qulliq Energy Corporation coming to our notice for compliance with specified authorities. The specified authorities against which compliance was audited are Part IX of the *Financial Administration Act* of Nunavut and regulations, the *Qulliq Energy Corporation Act* and regulations, and the by-laws of Qulliq Energy Corporation.

In our opinion, the transactions of Qulliq Energy Corporation that came to our notice during the audit of the financial statements have complied, in all material respects, with the specified authorities referred to above. Further, as required by the *Financial Administration Act* of Nunavut, we report that, in our opinion, the accounting principles in Canadian public sector accounting standards have been applied on a basis consistent with that of the preceding year. In addition, in our opinion, proper books of account have been kept by Qulliq Energy Corporation and the financial statements are in agreement therewith.

Responsibilities of Management for Compliance with Specified Authorities

Management is responsible for Qulliq Energy Corporation's compliance with the specified authorities named above, and for such internal control as management determines is necessary to enable Qulliq Energy Corporation to comply with the specified authorities.

Auditor's Responsibilities for the Audit of Compliance with Specified Authorities

Our audit responsibilities include planning and performing procedures to provide an audit opinion and reporting on whether the transactions coming to our notice during the audit of the financial statements are in compliance with the specified authorities referred to above.

Michael B. Robichaud, CPA, CA
Principal
for the Interim Auditor General of Canada

Ottawa, Canada
